Dismantling Against Humanity

Former Mayor Fiorello La Guardia of N. Y. Harry Hopkins, (Al Raschid) Maxim Litvinov (Finkelstein).

Three of the Zionists who directed the war with F.D.R. and Winston Churchill as fronts. Hopkins as U.S. Lend-Lease Administrator claps the hand of Finkelstein, Soviet Ambassador to the United States after telling a Russian War Relief Rally at Madison Square Garden, New York on June 22, 1942 that the President sent word that the United States would aid the Soviet forces on the battlefield and that the Russian front would not fail. Zionists, by placing Hopkins as Lend-Lease Administrator, made sure that their friends, the Soviet Union would receive the eleven billion dollars of valuable war material for which they paid nothing. Hopkins was exposed on Fulton Lewis' Jr. radio program by Major George Racey Jordan as the one who supervised the stealing by Soviet spies of tons of confidential letters from our State Department. At Great Falls, Montana, where Major Jordan was in charge during the war, he protested for months and finally opened 30 suitcases full of papers. He testified that seven thousand planes we gave the Soviet Union were loaded with suitcases. These planes were flown from Great Falls to Fairbanks, Alaska, where Soviet flyers took them to Moscow.

Major Jordan found Hopkins' letter written on White House stationery forbidding any interference with the stealing of these valuable papers.

The late La Guardia, whose mother was a Zionist and who was married to a Zionist, later on as UNRRA head, saw that the funds were used to help equip Tito in Yugoslavia.

Herbert Lehman, as head of UNRRA before La Guardia, had also backed Communism with UNRRA funds. Finkelstein, in arranging with F.D.R. for recognition of the Soviet Union by the U.S., promised that the Communists would not propagandize in the United States, but immediately after recognition they launched here in the U.S. 200 communist publications in five languages.

When Finkelstein was asked about his promise to F.D.R. he stated "if Roosevelt was fool enough to take my word in exchange for something valuable I would have been a fool not to have given my word."

We were told we were fighting for freedom of fear, freedom of speech and freedom of religion. It is well to remember that the Zionist strategy in propagandizing is to always state the opposite of what they mean.

The U. S. Imports Treason

By Frederick Kister, Director, Christian Veterans Political Counsel, Chicago.

With the turn of the twentieth century and the influx of new immigrants we have seen a change take place. Some of these men came to America not only to share in a new prosperity and a new freedom but they also desired to shape and control the destiny of the new land. They became citizens of America merely as a matter of form but they never became citizens in heart or mind.

In recent years we have not imported men

who desired to be worthy citizens but men who were carriers of hatred, vengeance, and philosophies of destruction. In 1933, when Hitler rose to power in Germany, America became a haven for a new horde of refugees. Among them was a highly over publicized scientist by the name of Dr. Albert Einstein. Dr. Einstein it is reported was associated with many persons who were working for a Communist Germany. When Hitler took power the Communists and their friends

Somewhere in Western Germany, a large group of people—middle aged, as well as younger men and women—stood helplessly and despondently before a rubble heap of a former huge factory which had been the place of their livelihood.

Silently they contemplated this insane and wanton crazy-quilt consisting of huge piles of brick, rusty iron pipes, beams, boxes and machine parts. Some of this material would have been well worth salvaging, but there it was left to rot and rust.

Finally, one of the group exclaimed: "The machines are gone. What are we going to work with? How shall we make a living?"

At this moment, a stranger approached. Grasping a ready-made opportunity, he at once mounted a soapbox and replied: "Don't worry comrades! With hammer and sickle we go on to the new order!" He continued to preach the gospel of the new religion for world-wide revolution against the capitalistic system; Western Powers versus the humanitarian Welfare State of the U.S.S.R. Purposely he left out any mention of "Communism"—knowing well the antagonistic feelings of his audience relative to "Communism."

"What you German workers should do is to join your Eastern brothers to establish a real new deal, hand-in-hand with your powerful neighbor the U.S.S.R. It is your only salvation to get a break and to re-establish your human dignity as free workers. We, the genuine socialistic Welfare State, the U.S.S.R., can provide the real solution to your troubles. Forget the war incidents. The fundamental idea of human rights and existence, the right to work, protection in sickness and old age, are still the tenets of our wonderful Soviet Republics."

Warmed up, the stranger went on: "Communism is not ruthless as propagandized by the Western capitalistic interests. The capitalistic Western Democracies are not fighting for the welfare of mankind, they care nothing for the living and liberty of the workers. Unfair competition, lust for power and greed—these are the trademarks of the Western Powers. You are just like a herd of cattle led to slaughter and starvation. Your problems will not be solved by the Western hypocrites as the dismantling decree clearly indicates. Wake up, comrades! March hand-in-hand with us against the tyranny of the Western capitalists—those parasites of the world!"

And so the tirade went on ad infinitum.

The political blunders of the Western allies provide a clearly laid campaign for the Communist agitators to win the support of the Ger-

It has never been the policy of the Jewish leaders to tell their lesser brethren all that they have in mind—still less to tell their Gentile agents. The truth is they back Communism when it suits them—not because they are interested in Communism but because they are interested in Communist Revolutions, Communist Revolutions enable them to destroy Governments and so prepare the way for a Zionist World Government.

The Plan is revealed in the 'Protocols of the Learned Elders of Zion' which fell into Gentile hands over 40 years ago, which the Press refuses to advertise and of which all the Russian copies were confiscated by the Bolsheviks who killed anyone known to possess them.

Mr. McGinley,

"Every issue of Common Sense gives us the amazing facts of the Zionist-Marxist enemy of Christianity. Your work is courageous indeed. Too few have dared to speak up. It requires sacrifice for which the Good Lord will reward you and those assisting. I am sad when I recall Father Coughlin's persecution for warning us and so many refused to listen."

Mrs. R., Chicago.

Dear Christian Friends:

COMMON SENSE and the booklets have arrived and I shall distribute them; sending them especially to Colorado and Nevada. If I can be of any help to you, as long as God spares my life, don't fail to call on me; for as long as I live I shall raise my voice against all Communism and God dishonoring atheism which originates in the pits of Hell. From your friend in Christ—

W. C. — Missouri.

Dear Conde McGinley:

You have, no doubt, heard the results of our General Election. Although returned to power, the Socialists have suffered a great moral defeat. I feel sure that another General Election is very near. Mr. Morrison, himself, has said that the Labor Party will try to carry on "for a year"—a sign that he expects defeat. The Socialists cannot carry on with such a small majority.

One thing is certain; the Socialists will have to cut down on their mad schemes. To attempt further "Nationalization" might spell their defeat. If it had not been for the "Liberals" the Socialists would be OUT. Another good sign. Both previous Communist members have been defeated HEAVILY—in spite of their enormous campaigns.

—R. B. G., England.

Dear Sir:

Enclosed find a small check thanking you for the pamphlets and papers you have been sending me which I distribute as much as possible. I contribute this money out of my pocket and try to do as much as I can. I am 80 years of age but still am pretty active in life, as I think we older people must try to show the younger generation the way to freedom as long as they are so ignorant of the coming future they are running into. As old as I am I still have to make my own living and I would like to send more but cannot afford it.

Mr. Conde McGinley,

Dear Sir:

I was very much amused at your comments under the heading of "Anti-Semitism Charged" in last night's Newark Evening News.

Just to enlighten you, the reason Jerusalem is called "Jewrusalem" is because a Jew by the name of Jesus Christ was born there. His Jewish name was Joshua (that's a nice slur).

(Editor's note: The real name of Christ in Hebrew is **Jeschua Hanotsri**—Jesus the Nazarene. He is called **Notsri** from the city of Nazareth in which he was brought up. Thus in the Jewish Talmud Christians also are called **Notsrim**—Nazarenes. Since the word **Jeschua** means "Savior," the name Jesus rarely occurs in Jewish books. It is almost always abbreviated to **Jeschu**, which is maliciously taken as if it were composed of the initial letters of the three words **Immach SChemo Vezikro**—"May his name and memory be blotted out." But let's get back to M. J. E.'s letter . . .)

The clergyman who informed you that within a year and a half all signs of Christianity will be wiped out of the Holy Land is talking "thru his hat." If Christianity were wiped out, it would be a blessing to the entire world for the greatest tragedy happened when Christianity was born. It is so rotten that it stinks. It teaches hatred, bigotry, not alone of the Jews, but one Christian (Catholics) against another Christian (Protestant).

Christ didn't hate the Jews, like you. He was one himself. One of his teachings was "Love thy neighbor as thyself." How many Christians practice this? If they did the religious wars of the Middle Ages would never have taken place. Jewish blood throughout the ages would never have been spilled and the world would be a better place to live in. What would Christ think if he were alive to see what misery he has wrought upon his own people?

For almost 4000 years the Jews existed before he came into being, yet the Christians think

The Patient Died

Released by George Peck, New York City

By Dr. Alfred P. Haake

(EDITOR'S NOTE: Alfred P. Haake, Ph.D., Mayor of Park Ridge, Illinois, is a noted Economist, Business Consultant, Lecturer and Author.)

We are sinners, all of us, most of us in one respect especially; sometimes unconsciously, sometimes consciously.

While I respect all the Ten Commandments, the one that appeals most to me is that which advises us not to bear false witness.

Many of the world's troubles, if not most of them, grow out of the bearing of false witness. Whether this sin is committed deliberately or unconsciously, the result is identical. It cannot be excused on the basis of ignorance or good intent. It behooves us to bear accurate and correct witness.

Because of the bearers of false witness, many people in the world today do not recognize the disaster that is approaching us. It is hard to understand how anyone at all familiar with history, and of reasonable intelligence, can fail to see that we are repeating in these days the course that history has taken not once but many times in the past; from Rome, under Diocletian, all through the years down to England, under the Socialists today.

That's not because the English people are not intelligent or well-intentioned. They have become enamored of a vision and fail to recognize the real factors and the truth. They have become obsessed with a conviction to such an extent that they do not see the things that are actually happening and the danger in their present course.

As in England, there are many here in America who are putting their trust in economic doctors who know little or nothing about economic anatomy. These same people would not think of permitting a surgeon who does not have a thorough knowledge of physical anatomy, to operate upon their bodies. Why then do they permit these economic quacks, who know so little of the anatomy of society, relationships of human beings and the laws that govern life; to prescribe an operation and proceed to operate upon the body economic?

These pseudo-economic doctors, who are sublimely ignorant of the anatomy of our economic system, are overly zealous to operate upon it. It hurts me to have to say this of some of my fellow-craftsmen in economics, but they are very much like the mathematician who attempts to deal in geometry, trigonometry, algebra or calculus, without first having bothered to study and master plain arithmetic.

That is one reason why our American colleges today are grinding out so many graduates who have no understanding whatsoever of the fundamentals of economics.

You and I must beware of these Do-Gooder socialistic planners, who bear false witness. We must not let them prescribe for us, much less operate.

Somehow they bring to mind the old bromide about the unqualified, inadequately-trained surgeon who performed his first operation.

When asked how it had come out, he replied, "It was a big success."

And to the further question, "How's the patient," his answer was, "Oh! the patient died."

Let's bear in mind that nations, even as individuals, cannot survive the butchery wrought by a knife in the hands of an unskilled surgeon.

Let's not have a successful (?) operation performed upon these United States that will call for the sad, sad answer, "Oh! the patient died."

we should accept him as the son of God. Since God was not a person how could he have a son?

Moses, a far greater prophet than Christ, we didn't even accept as a deity. Therefore, the comparison between Judaism and Christianity is odious.

How can the Jews respect a religion with so many denominations, each hating the other? Each with his own nonsensical rituals? Does that make sense?

If you are an anti-Semite think twice before you spread your poison. Remember the man you worship was a Jew and his religion was Jewish, and not Christian, for there was no Christianity at that time.

—M. J. E., 71 Milford Avenue
Newark, New Jersey.

P.S. Hope you'll live to see the day Israel will be a great nation of Jews. You'll have something to talk about then. (without the help of Christ—our own God.)

fled or went underground. Dr. Einstein eventually came to America.

In the American press Dr. Einstein was painted as a rare genius and like the over-rated comedian, Charlie Chaplin, he preferred to be called a citizen of the world. We have never seen any evidence that Dr. Einstein has allowed his name to be used in organizations which stand in defense of the American tradition. Investigation reveals that Dr. Einstein's name appears with some organizations which have been declared subversive by the Committee on Un-American Activities—organizations like the Congress of American-Soviet Friendship, the American Committee for Protection of the Foreign Born, and the Joint Anti-Fascist Refugee Committee.

Communism is not the only subversive movement—the organizations for World Government are equally un-American and far more dangerous because they have been successful in enlisting the support of many gullible Americans who should know better. Dr. Einstein is playing an important part in the propaganda drive for World Government. The strategy of these propagandists is to force the American people to relinquish their sovereignty to a super state through fear—fear of the atomic and hydrogen bombs. Speaking of the new hydrogen bomb Dr. Einstein said: "... if the hydrogen bomb is developed annihilation of any life on earth is within the range of technical possibilities." He called the present armaments race between the United States and Russia, "a disastrous illusion" and called for peace moves to "do away with mutual fear and distrust." Dr. Einstein, playing his hand cleverly for World Government, continued:

"A super-national body would be necessary to carry out nonviolent aims and that international control of weapons would be only of secondary use as a police measure."

We do not doubt the deadly potential of the hydrogen bomb and the world has certainly witnessed the horror inflicted on the Japanese by our use of the Atomic Bomb on defenseless civilian populations. But the new weapons are being publicized for a purpose and that is to destroy the American nation through fear—a deadly fear that will surrender the American nation without a struggle to the greatest band of international gangsters the world has ever seen.

Many gullible Americans will say that the organizations promoting Brotherhood and World Government are not Communist but in fact are opposed to Stalinism. The evidence at hand proves the opposite. Alger Hiss played an important part in organizations for World Government. He also worked hand in hand with the Communist underground in America, supplying top-secret information to Soviet Russia. Einstein has a similar record of Communist association although it has not been proved to date that he has been other than a propagandist.

Representative John Rankin commenting on Einstein's recent statement on the hydrogen bomb said: "One of the greatest fakers the world ever knew is Albert Einstein, who should have been deported for his communistic activities years ago . . . The bunk that he now is spreading about world government is simply carrying out the communist line."

Our nation stands at the crossroads. The American people should have good reason for fear—not because of the atomic or the hydrogen bombs—but because of men like Alger Hiss, Albert Einstein and many others. With the turn of the century we have allowed treason to immigrate and infiltrate our institutions and our national thinking. When are we going to deport treason and return to the faith of the founding fathers?

man workers. Prompted to feel themselves betrayed by the Western world, the German workers are made to believe that the plants are only destroyed to enable the Anglo-Saxon trusts to make bigger profits. This feeling of betrayal is far more disastrous than the production of German home requirements.

No German can stomach the idiotic paradox of the Marshall plan on the one hand, and the deliberate destruction of peaceful productive capacity in Germany on the other, and Communist agitators are convincing large numbers of Germans that economic rivalry in the export market is at the back of it all.

During the winter of 1948-49 many plants were reconstructed and put into productive operation. By hard toil some of the barest essentials of life were procured and people began to live again, filled with hope and courage. Then, like a thunderbolt from a clear sky, a new dismantling order—calling for the destruction of the rebuilt plants—was issued. First bombed out, then rebuilt and put into operation with permission of the Military Government, then destroyed again.

While the world is given the impression that the dismantling problem in Germany is solved, the fact is that the minor units, now in production, will have to cease operation automatically for they are dependent upon the larger units scheduled for dismantling. According to the Inter-Allied Reparations Agency's "Reparation News," of December 6, 1949, there are still 143 German war and industrial plants, "adaptable for peacetime production", still to be allocated as reparation among the western allied nations.

Disregarding the human misery and distress created by the dismantling program, waging a cold war against the embittered German workers (instead of fostering good will, which is supposed to be the object of the E.R.P. Plan and the Marshall E.C.A. Plan) is driving them, in desperation, right into the hands of the Communists. Further, while there is no formal listing of all the German industrial potential put on the other side of all the iron curtain countries, it is known that Russia has collected nearly 14 billion in reparations.

The motive of this destruction of German economic wealth is England's audacious greed for supremacy of European commerce. The war guilt of the German nation was purposely invented by false and malicious libel and widely propagated in order to fabricate a reason for these dismantlings and destruction of productive capacity and thus prevent Germany from waging another war. This fiction provided an opportunity to eliminate a competitor under the disguise of protecting humanity's welfare and peace.

An example of this hypocrisy is the fact that, at a time when millions of Germans crowded in bomb-wrecked housing desperately needed soap to prevent disease, the British dismantled one of the biggest soap factories in Germany on the excuse that soap-making produces glycerine from which explosives could be made. The real purpose was to eliminate the largest soap manufacturing plant as competition of the British multi-million dollar soap monopoly. Further, the soap producing plants of Henkel & Cie, Dusseldorf—M. Kappus, Offenbach—and Roehmn & Haas, Darmstadt, are among the 143 "general-purpose industrial plants adaptable for peacetime use," still to be allocated as reparations.

Dismantling of German productive capacities increases the need for Marshall Plan aid and when the E.R.P. terminates by 1952, it will inevitably force Germany to secure an export surplus some way, and some how, in order to make enough money through exports to pay for essential imports of food and raw materials. Or, is the American taxpayer forever to support the European W.P.A.?

Dismantling has already caused the unemployment of nearly two million workers. In view of the cold war we are supposedly waging with Russia, it is paradoxical that dismantled plants and steel mills are still being shipped to Russia.

Rating soap factories as having great potential military value to Germany is ridiculous and does not show good judgment. It is in direct disregard of handling our tax money, because we have had to furnish the soap—that is the money to buy the English soap.

To understand the situation and to realize the importance of German industrial capacity, it's urgent need in European reconstruction and recovery, one should study and read the illustrated memorandum "Reparation" and the E.R.P. versus Industrial Dismantling in Germany. Copy of E.R.P. 50 cents.

The Proteous Of People

Every day that passes further discloses the disruptive forces at work within the United States, with the result that every day brings new recruits into the group of those who realize that some sinister destructive force is at work. Every day more and more of these people determine to exercise themselves in opposing that force. Consequently, the necessity for clearly discerning the nature of that force becomes more urgently important.

A review of the political activity in the Country reveals the existence of many conceptions of the nature of that force in the minds of those who are seeking to oppose it. To some it is "Socialism," and they are "Anti-Socialist," to others it is "Communism" and they are "Anti-Communist," some see it as nothing but the work of the "Bolsheviks" and they are "Anti-Bolshevik," and pass up the subversive activities with a shrug of the shoulders. There are many other theories of its nature. This is very natural, for people react to that particular phase of it with which they come into contact and of which, to some extent, they have sensed the danger.

The time has now come when these different conceptions should be correlated, and the particular characteristics and field of each should be recognized.

Long ago we undertook for our own satisfaction to do this very thing, and discovered that in all of these apparently different systems of ideas there existed a singular similarity. They were all the result of a particular outlook on life; a view which was certainly not the result of Christian thought. It was an outlook which gave supremacy to the material, and the only teaching which we could find of this nature was in the TALMUD. This was an interesting revelation, the value of which was utterly unrecognized until applied.

Only when we had obtained the knowledge of what to look for did we find that, at the back of all these systems of ideas, there was invariably the mind of the Jew suggesting them and, almost equally invariably, Zionist minds directing their course. We were aware of the world-known fact that there existed a power, the sole aim of which is the perversion of the Divine Power, but that there should be a particular body of people who predominated in the activities of this perverted scheme was startling to us.

We found, however, that there was nothing new in the fact of their activity, and that it was not by mere chance that they were so largely in the fore front, operating this perverted power. We discovered that they were a highly organized people deliberately working as a body in opposing the Divine Law.

This discovery was like a magic guidance to the fitting together of the pieces in the jigsaw puzzle of the world drama. Once in possession of this Key, all the otherwise unexplainable mysteries—the application of utterly ridiculous and absurd theories to the practical matters of life—are explained.

The Zionists are revealed as the seducers of nations, the purveyors of "Ideas" which are the elimination of the Divine Law and which, if persisted in, must inevitably destroy them.

A study of the methods adopted by the Zionists to thus seduce Christian peoples to work for Anti-Christ reveals a degree of subtlety incredible to the uninstructed Christian mind. A Jew himself has given us the correct phrase with which to describe their duplicity, or rather "Multiplicity." Mr. Israel Zangwill, in his poem, "Israel," describes his nation as the "Proteus of Peoples," and as "Wearing all colors and none."

Proteus, in the old mythology, is described by Homer as having had Menelaus in his power only so long as Menelaus was unable to grasp him in his true shape. So long as Proteus was able to change his form into any shape he desired, Menelaus had no power over him. And this is exactly the situation in which the Christian nations find themselves with regard to Jewry.

ZIONISM IS THE PROTEUS OF PEOPLES

We assert, therefore, that all these apparently differing systems of ideas have but one origin and one purpose. They originated in the mind of Jewry and are designed to confuse and destroy those who are so misguided as to give credence to them. This being so, it follows that there is but one name to give the destructive agencies—Communism and Socialism—which Americans have to oppose. That name is Zionism.

Zionism and radicalism are one and the same thing. To think of it as being "Socialism," or "Communism," or "Bolshevism," or "Subversiveism," or any other "Isms" than "Zionism" is simply to render ourselves impotent from the

beginning. Make no mistake about it, as long as Zionists are able to disguise their activities, so will they produce just as many more "Isms," as they can think of.

ZIONISM—A MINORITY CONTROL

You may say that the Zionists, being only a minority in number within the United States, cannot control our government. The Jews claim only about five million; however, the United States Religious Census for 1930 shows that there were then 4,081,242 active members of Jewish Synagogues. As only male members of the tribe from 18 years and up are eligible to membership in a Synagogue, the census did not include Jewish non-members, half-Jews and moistened (Baptised) Jews. Nor were women and minors—both excluded from membership in Synagogues—covered by the census. Thus, it is reasonable to estimate the total Jewish population within the United States at not less than twelve million.

This closely united, alien population is centered in the key industrial States which have the largest electoral vote, such as New York, Pennsylvania, New Jersey, Massachusetts, California and Illinois. With the Christians more or less equally divided as Republicans and Democrats, the Jews, by throwing their united, controlled and concentrated vote to one party or the other, or one candidate or the other, can control all elections. Further, by concentration of votes in the primary elections of both parties they are able to control both party organizations by electing candidates favorable to their schemes. The Zionists dominate and rule by reason of keeping the Christians divided over petty questions; influencing public opinion through control of the press, radio, screen and theatre, and creating constant unrest by financing and directing all subversive parties and organizations.

DON'T RELY ON THE LABEL

There is one absolutely safe rule in dealing with all "Isms." Don't rely on the label! Open the matter up! Investigate! You will find that the Jewish "labor union" is not what it pretends to be. You will find that the leaders of Socialism and Communism are leaders in Zionism. You will find that "one world idealism" is allied with the Zionist plan for world domination.

Today, the great questions of vital concern to all true Americans, such as Communism, Socialism, "world federation" and the "Cold War," can be understood only when one realizes the effects of the maneuvering of the group, so aptly described by the Jew, Israel Zangwill, as the "Proteus of Peoples."

HUNGARIAN REFUGEE SAYS ROBERT VOGELER WAS NO SPY

(Editor's Note: Although the writer of the following letter gave us permission to use his name, we are withholding it. We feel that all intelligent readers of COMMON SENSE will see why we made this decision.
—C. McG.)

Editor,
COMMON SENSE

I saw in COMMON SENSE the article written about the spy trial of Mr. Robert Vogeler, vice-president of International Telephone and Telegraph of Hungary. During the years of 46-47, I met Mr. Vogeler on many occasions in the offices of the U. S. Legation of Budapest, where we had lengthy conversations about the situation of Hungary under the Zionist and Communist murderers. I know positively that Mr. Vogeler was never connected with any spying group, which in these times is very limited in Hungary.

You say that you haven't any information about Judge Vilmos Olthy's and Prosecuting Attorney Alappy's Zionist connections. These two beasts are not Jews; but they and Sandor Halasz, and Gyorgy Sarkany, Prosecuting Attorneys, who prosecuted all the pro-Jewish trials after the war are always in on the Zionist meetings. And, their office staffs are at least 95 per cent Zionist Jews. During the time of the Nyilas (Nazi) era, they were with the "Nyilas". As soon as the Communists took over they, as sadist gangsters, joined up with the Communist-Zionist murderers.

Dr. Alapy, who prosecuted Cardinal Mindszenty, on many occasions served as executioner on the innocent Christian and Jewish prisoners during the Nazi time. Dr. Halasz and Dr. Sarkany are responsible for my arrest and later the conviction in absentia which was held in September against me.

Recently I received word that the secret political police force in Hungary, which was manned by 80 per cent Jewish and 20 per cent renegade Christians, has been dissolved and re-organized entirely by Jewish elements who, during the last war, attended Communist political school in Russia for at least one year. The majority of the older personnel was dismissed as untrustworthy. Many of these ex-policemen tried to escape from the Communist haven to Austria. On March 1st, from one small village on the Austrian border, 36 persons, Christians and "untrustworthy" Jews—tried to cross the border after they removed the mines which protect the lines. But, the border patrol (Russians and Hungarians) found out their escape attempt and captured them. Nine persons were killed and four seriously wounded. The prisoners, including the four wounded, had to walk 14 miles to the nearest Army command where all, without any trial, summarily were executed by the Russian-Hungarian political police. One Jewish girl, 17 years old, on request of the Zionist organization in the city, was saved from the firing squad. Every city or village, as in the 1919 Communist times, has a dictator who, in every instance, is a Jew.

Sincerely yours for
Christian America.

Hate

by Nicoli Lenin

We must hate—hatred is the basis of Communism. Children must be taught to hate their parents if they are not Communists. If they are, then the children need not respect them; need not worry about them.—(Lenin, Congressional Record, vol. 77, pp. 1539-40; "MKR" p.123).

"We hate Christianity and Christians. Even the best of them must be considered our worst enemies. They preach love of one's neighbor and mercy, which is contrary to our principles. What we want is hate . . . Only then will we conquer the Universe."

—Anatole Lunarchsky, Soviet Commisar of Education. At speech made in Moscow in 1925, quoted in IZVESTIA (Congressional Record, Vol. 77, pp. 1539 - 1540).

CRIMINAL COMMUNISM MURDERS ALL FREEDOMS

One of the latest disclosures of Communistic "liberty" is revealed in Archbishop Beran's accusation that the Czech government is keeping him prisoner in his Prague palace.

An electrical torture appliance for the tongue of reluctant witnesses is shown to all Lithuanian "suspects" brought into "Interrogation Chambers." The "suspects" are, naturally, anti-Communists.

In "free" Paris, a visitor to Communist headquarters must spend 15 minutes or more in an attempt to pass surly, armed guards. Then, maybe, the visitor is allowed inside.

Communist Prague went so far as to announce that 2,300 priests had joined a communist-founded "Catholic Action" against the Vatican. An examination, however, disclosed that the "members" were long since dead. Included in the list were the names of priests from a Carmelite House which has not existed since the 18th century.

Hungarian bishops are being blackmailed by their Communist government which tells them that Cardinal Mindszenty's sentence will be shortened if they disown the Vatican. But, if the Bishops insist upon remaining loyal to the Pope, the Cardinal's sentence will be—DEATH.

Attention Southern Methodist University: Dallas, Texas—Bulgarian students must listen to Marxist lectures or abandon a college education. Six thousand students have already been expelled from Sofia University because they were not enthusiastic Communists.

Communism's iron fist is even more terrifying in the Baltic states where Stalin does not have to operate under a stooge. The persecuted people in these captive states, which were forced to become Soviet republics, know that 20 penal colonies have been opened with 1,000 to 7,000 persons in each. All the property-owners, officials, civic leaders and ex-Army officers are sent to these slave camps unless they switch to Communism.

Once they've taken over a country, however, the Russians do not, ordinarily, kill for revenge. Sweat is preferred to blood. A dead man can't lay bricks for eighteen hours a day or swing an ax on potato soup meals. No, the "undesirables" are purposely denied a merciful death while they toil as convicts—pitiful, half-starved wrecks of humanity.

Freedom-loving Americans! Fight while there is time to fight! Today is not too early; tomorrow may be too late!

LIBERTY is the basis of our independency, and whoever would DARE to stop the foundation or overturn the structure, under whatever specious pretext he may attempt it, will merit the bitterest execration and the severest PUNISHMENT which can be inflicted by this injured country.

George Washington.

When the State is most corrupt, then the laws are most multiplied.

—Tacitus.

The people who are not governed by God will be ruled by Tyrants.

—William Penn.

"It is necessary . . . to be prepared to resort to make any sort of sacrifice, to be prepared to resort to every possible subterfuge, trick, illegal device circulated to conceal the truth."—Lenin

Love

Christ called Himself the "Light of the world." His whole life's work was a mission of enlightening His contemporaries and enlightening all generations to come. His mission began by His becoming identified with family life. By choosing to be born into a family, to grow up there in an atmosphere of virtue and in the love of God and of the family. He established this family of Nazareth as the standard and the inspiration. No wonder it is called the "Holy Family"; no wonder so many have found peace and happiness by following it as the perfect model.

Stalin Is Not The Big Chief

(Continued from page 1)

'Jacob Schiff. His Life and Letters' where Adler describes how this wealthy New York Jewish Banker, at that time President of Kuhn Loeb Co., which is now directed by the Warburgs, devoted his life to the promotion of Communism in Russia because the Tzarist Regime was an obstacle to Jewish ambitions. You have only to read the statements of Jews to put the whole story together for yourself. There are now many collections of these statements linked up with world events and leading politicians, and they are available from the Britons Publishing Society. They show beyond any doubt that Stalin has acted as a tool in the hands of others behind the scenes in various parts of the world—how on the whole he has proved less satisfactory to his Jewish masters than they had hoped when they allowed him to remove Trotsky. Trotsky being a Jew and in direct contact with Kuhn Loeb Co. probably knew the final plan.

Readers will know that the split between Stalin and Trotsky was because of Stalin's decision to make a militarist Russia the control centre for the spread of Communism by force of arms. The policy of armed aggression that followed was useful to the Jews in the war against an anti-Jewish Germany. It is being made use of now to bludgeon Western Europe into forming a United States of Europe on republican lines, with Spaak, a typical Jews' man, as "President".

The fear of Russian aggression is thus hastening the creation of a Kerensky regime in Western Europe in which the separate Kingdoms will cease to count and which will bring the Zionist World Government one stage nearer. But in all this there is one disadvantage even for the Jews. Stalin's policy of armed aggression has added to the fear of Communism and stiffened the Resistance against it as a creed.

It has set back the hopes of the Jewish Revolutionists and the Jewish Bankers of starting isolated Communist Revolutions on the lines attempted in Spain. It has made Communism doubly unpopular in Britain. The real world revolutionaries have decided that unless they can be sure that Russia would succeed in a war of aggression the aggression should stop—and that Communism must be given time in which to recover from the bad odour in which Stalin's foreign policy has placed it. Stalin has behaved just like a "bloody baboon" because, not being one of the "Chosen" himself, he knows only half of what he is supposed to be doing. The part that he does not understand is the setting up of a Jewish World State. And it is hardly likely that the Jews will tell him that Moscow will have to take second place, to Jerusalem as the centre of their World Government.

The back-room boys of world revolution, planning their World State while living comfortably in New York on the fat of America and Britain, are also worried on another point. How much longer can they conceal from the world their part in launching Communism upon it? Loud as they are in their condemnation just now of Russian aggression they know they may have to answer charges of being solely responsible in the first instance. They are a sitting target for the Truth.
